Mr. Smith will sail for Scotland on the 28th, per steamer Oregon, and will return about the first of March with a fine herd of Polled Angus cattle, with which he will stock the ranch.

Iola may flatter herself that the one of Governor Glick's appointments which has done him the most credit, is that of Captain Jones as warden of the penitentiary. The Captain has developed unusual business ability and his monthly reports show that under his management this institution has not only become self-supporting, but is making the state considerable money. A Greeley Democrat can occasionally do as well as a Republican—if he hails from Iola.

We have a pretty good assortment of lawyers now, but there are good prospects for a further increase of our supply. Capt. Ewing will probably enter upon the practice as soon as he gets his affairs comfortably arranged, a Mr. Henry, of Illinois, has been in town this week, looking up a location, young Mr. Jones, whose parents are building a residence on Washington avenue, is also thinking of locating here, while a gentleman in West Virginia has also been corresponding with parties here with the same object in view. Always room for one more.

Mr. Lewis Edmundson had a serious runaway—or kickaway, rather—last Saturday morning. He was riding in a single top buggy, and accompanied by his daughter and her two children. While driving west just in front of the Court House, the horse became frightened at a delivery wagon, and tried to run. Mr. Edmundson held him down, but he began to kick furiously and in this manner dragged the buggy around in a complete circle, crossing the high sidewalk east of Klaumann & Co's., where it was almost a miracle that the buggy was not overturned. When they had just about reached the "point of beginning," the horse broke the shafts, kicked loose, and lit out on his own account, leaving the occupants of the buggy unharmed, excepting a gash in Mr. Edmundson's forehead, caused doubtless by a splinter from the demolished rigging. It was one of those cases where "it might have been" infinitely worse.

**THE SMITH CASES.**

The cases of the State vs. Smith and Smith for resisting the officer in the discharge of his duty, which has been on trial for the second time before Judge Christy this week, was ended Wednesday by a verdict of guilty. The Judge assessed a fine of \$5 and costs each. The case was appealed to the District Court. The same parties were brought up yesterday to answer to the charge of assaulting Mr. Knight. George Smith pled guilty and was fined \$5 and costs and the suit against Joseph Smith on the same charge was dismissed. The same parties were further charged with another assault each but by agreement these two cases were also dismissed.

This will be a new departure for our town and one for which we predict success. Mr. Grimes went to St. Louis yesterday to purchase a stock of goods. Watch for his announcement next week.

**LITERARY UNION.**

A very interesting programme, interspersed with music, was given at the Court House by the Literary Union last Friday evening. Miss Nannie Pugh's essay on "Criticism" was a most admirable production, both in thought and expression. It was enjoyed the most perhaps, of any of the evening's exercises. Mr. Whitaker read a somewhat sombre paper on "Our Burdens." Mr. Oscar Foust gave a very entertaining and encouraging talk on the benefits of literary society work. Mr. Foust is a valuable addition to the society. The debate was on the Perpetuation of the National Banking System; affirmed, by C. F. Scott, denied by Prof. A. S. Olin.

An instructive programme is promised to-night. Special features will be the "dispute" between Miss Ella Cowan and Miss Nettie Scott, and the debate on Millionaires.

**SCHOOL ITEMS.**

BY ARMED AND MINERVA.

The initials of four of our fair teachers spell game. This is leap year and we will see how many of them find Friday.

Last Friday the 9th grade was examined in Philosophy; the 8th in Latin, and the 7th in History.

A pleasant surprise party was tendered Miss Anna Keyser by her last year's pupils, last Thursday evening, as a token of the high esteem in which she is held by them.

The 9th grade was 100 per cent. in punctuality and attendance last week.

We think the grammar classes are improving rapidly. The same class that carried off the honors in correcting sentences when asked to give the feminine of bean, said soldier; Lord, said Lordy; monk, said monkey; Paul, said Silas. There are more Tom Sawyers than one.

**A CORRECTION.**

IOLA, KANSAS, Jan. 21, 1884.

Editor of the Register:—Will you be kind enough to publish these few remarks with reference to the Boken-Montgomery case, mentioned in last week's REGISTER.

The editors of the REGISTER have no better or truer friend personally than myself, and I haven't the least idea that they have either desire or purpose to mis-state or misrepresent either persons or state of facts in the REGISTER, but that zeal should be accorded to knowledge is an old as well as sacred adage.

The Boken-Montgomery case is not, and never was an "Injunction case." There never was, at any time, any "Order of court," or any kind issued against any body in the case, or of any judge of any court. There was an order of attachment issued by the clerk of the district court; a mere ministerial act. And I am satisfied the clerk hasn't the least idea in the world of arrogating to himself the authority of a "court." The writ issued by the clerk of the court, a mere clerical act, and the "Order of Court" are quite different things. Montgomery never did, at any time, or in any sense, become the agent of the sheriff for anything or to take care of anything; but on the contrary, on every occasion expressly disclaimed the right of the sheriff to any of his property, except a span of mules, which he told him should be forthcoming when wanted if left with him; that he faithfully carried out. As to the other facts in the case they will be brought out on the trial now pending.

I have been induced to make these statements from the fact that I do not believe the statements made in last week's paper leave a correct impression of the case with the people. Any person reading that statement would, with a very little assistance of imagination, with which a good many are well supplied, infer that there was a flagrant violation of some order of the court and a very bad breach of good faith on the part of Montgomery, neither of which is correct. It is a simple test as to the rights of certain parties according to the ordinary and due course of law guaranteed to every man by the constitution. What the result will be can only be determined by time. But whatever it may be I think Mr. Montgomery will abide the result as peacefully as any man in the county.

Yours truly,  
ATTY FOR MONTGOMERY.

Referring to the above, we only have to say: That our reference to the Boken-Montgomery suit as an injunction case was merely a thoughtless mistake. That, in our opinion, an order of attachment, is just as binding and sacred until it is passed upon by the Court, as if it came from the mouth of the Court, instead of the hand of the clerk.

That our authority for stating that Mr. Montgomery promised to hold the corn under the "little tree" was Sherriff.

iff Worst himself, who made the statement to us, and reiterates it.

As our friend concedes to us, we endeavor to do entire justice in our reports of these "matters," and we hope that no inclination to one party above the other will lead us to distort the facts as they exist.

**KANSAS PATENTS.**
